Work Experience

Some Company ……….   *Type of job*

What role I played….   *Dec 2020 – Jan 2021*

- Key things I did
- Something
- Worked on managing databases

Projects by Me

Minimal Clock   *Python, C++*

Minimal Aesthetic Clock   *GitHub*

- Designed a very quick and minimal clock.
- Used cython on ctypes in the program to make use of native windows functions such as acrylic.
- Included a config file where you can dynamically and easy change settings in the clock.
- https://github.com/Ze7111/Minimal-Clock

Data Finder   *Python*

Simple to use data finder   *GitHub*

- Designed to be used with exceptionally large csv files.
- Made to be user friendly and easy to use, all you do is add the csv file and search.
- Output is extremely easy to read and comes out nice and clean with all related results.
- https://github.com/Ze7111/Data-Finder
