OBJECTIVE

I am seeking a dynamic on-campus role that will allow me to flex my technical and analytical muscles while offering an opportunity to learn, contribute, and grow. I am eager to undertake meaningful work in various fields and dedicated to contributing value to my job and improving the student community experience.

Dhruvan Kartik

BS. COMPUTER SCIENCE

ABOUT ME

I bring technical skills, adaptability, and a collaborative mentality as a Computer Science student with practical experience at Karkal. With qualifications in Unity and Unreal Engine and a history of community engagement through Dubai-based charity work, I am eager to contribute to, learn from, and make a positive effect in various on-campus roles.

EXPERIENCE

TEACHER OLCOTT MEMORIAL, HIGHER SECONDARY SCHOOL

- Facilitated comprehensive Computer Science teaching for secondary and primary students at Olcott Memorial Higher Secondary School in Chennai, India, during the internship.
- Conducted informative lessons on the C++ and Python programming languages, considerably improving secondary pupils' computational thinking and coding proficiency.
- Primary students participated in interactive learning activities to convey fundamental computer hardware knowledge, encouraging an early awareness and respect for technology.

EDUCATION

GEMS FIRSTPOINT SCHOOL, DUBAI, UNITED ARAB EMIRATES.

PURDUE FORT WAYNE.

FULL STACK WEB DEVEVLOPER KARKAL

- For the E-Commerce store Karkal, spearheaded the development of an intuitive, user-centric website, increasing online customer interaction and sales.
- Assisted with the smooth conversion of a MySQL database to Firebase, maintaining data integrity and optimizing system performance.
- Improved user interface with JavaScript and ReactJS, resulting in a responsive and visually appealing online purchasing experience.
- Engineered a robust backend architecture that provides admins and owners a streamlined method for easily modifying product offerings.
